REPORT OF SCHOOL BOARD.

The School District has maintained three schools during the past year, of 28 weeks each, and your committee feel that good work has been done.

Most of the time we were able to secure the services of experienced teachers and much credit is due them for the good results.

Much to the pleasure of the committee, we feel the schools have had the co-operation of the parents, which adds greatly to the success of the schools.

The Corser Hill schoolroom has been painted and papered, and a coat of varnish much improved the desks. Some minor repairs were also made by order of the State Board of Health.

A bookcase and blackboard have been placed in the Bashan school, during the past year.

By order of the State Board of Health, water tanks and individual drinking cups were placed in all the schools.

Music has been taught during the year, the teachers being Mrs. Mignault, Miss Clough and Miss Cram, and we feel a marked improvement has been made.

It seems as though the time had come when the tax payers of Webster should seriously consider the raising of more money for the support of our public schools, as we should not have less than 36 weeks of school during the year, otherwise our boys and girls have not an equal chance with those from surrounding towns.

The number of visits made by the committee during the school year 36 and by parents and friends 215.

A balance of \$33.00 was left over on account of money raised for teaching music in the schools, and \$28.67 on account of money raised for the repair of Corser Hill school yard.

We estimate the sum of \$125.00 will be needed for text books and supplies, and the sum of \$240.00 for high school tuition.

The roll of perfect attendance, and an itemized and classified statement of our expenditures follow.

Respectfully submitted,

HATTIE A. NICHOLS
J. STELLA HOLMES
ELSIE T. SANBORN
